From Springer

9th WCEAM Research Papers: Volume 1 Proceedings of 2014 World Congress on Engineering Asset Management (Lecture Notes in Mechanical Engineering) From Springer

Engineering asset management encompasses all types of engineered assets including built environment, infrastructure, plant, equipment, hardware systems and components. Following the release of ISO 5500x set of standards, the 9th WCEAM addresses the hugely important issue of what constitutes the body of knowledge in Engineering Asset Management. Topics discussed by Congress delegates are grouped into a number of tracks including strategies for investment and divestment of assets, operations and maintenance of assets, assessments of assets condition, risk and vulnerability, technologies and systems for management of asset, standards, education, training and certification. These proceedings include a sample of the wide range of topics presented during the 9th World Congress on Engineering Asset Management in Pretoria South Africa 28 – 31 October, 2014 and complements other emerging publications and standards that embrace the wide ranging issues concerning the management of engineered physical assets.

Editorial Review

From the Back Cover

Engineering asset management encompasses all types of engineered assets including built environment, infrastructure, plant, equipment, hardware systems and components. Following the release of ISO 5500x set of standards, the 9th WCEAM addresses the hugely important issue of what constitutes the body of knowledge in Engineering Asset Management. Topics discussed by Congress delegates are grouped into a number of tracks including strategies for investment and divestment of assets, operations and maintenance of assets, assessments of assets condition, risk and vulnerability, technologies and systems for management of asset, standards, education, training and certification. These proceedings include a sample of the wide range of topics presented during the 9th World Congress on Engineering Asset Management in Pretoria South Africa 28 – 31 October, 2014 and complements other emerging publications and standards that embrace the wide ranging issues concerning the management of engineered physical assets.

About the Author

Joe Amadi-Echendu is a Professor of Engineering and Technology Management at the University of Pretoria. Joe's considerable experience is underpinned by his doctoral research in digital signal processing, condition monitoring and diagnostic engineering management of physical plants and processes. Joe has worked in industry as a technician, engineer, project manager, systems analyst, managing consultant and practice director and was latterly involved in the implementation of "operational readiness" programmes for greenfield capital development in metals processing and gas liquefaction projects. Professor Amadi-Echendu has published extensively with numerous contributions to international conferences, journals and books and received a number of awards including the ISA England Section Distinguished Service Award. He is a registered professional engineer in both United Kingdom and South Africa, Editor-in-Chief of Springer's Engineering Asset Management Review Series, a Visiting Fellow at University of Greenwich, a member of the national IEC committee as Chairman TC50, as well as PC251 committee of Standards South Africa, Founding Fellow and Board Member of International Association for Engineering Asset Management, Founding Director of Institute of Engineering, Technology and Innovation Management at University of Port Harcourt, a current member of the Board of Directors of the International Association for the Management of Technology and served as the President of Southern African Maintenance Association from 2003 to 2005.

Users Review

From reader reviews:

Nicole Reagan:

Have you spare time for any day? What do you do when you have a lot more or little spare time? Sure, you can choose the suitable activity with regard to spend your time. Any person spent their very own spare time to take a go walking, shopping, or went to typically the Mall. How about open as well as read a book entitled 9th WCEAM Research Papers: Volume 1 Proceedings of 2014 World Congress on Engineering Asset Management (Lecture Notes in Mechanical Engineering)? Maybe it is to get best activity for you. You realize beside you can spend your time with the favorite's book, you can wiser than before. Do you agree with it has the opinion or you have various other opinion?

Donald Pate:

The knowledge that you get from 9th WCEAM Research Papers: Volume 1 Proceedings of 2014 World Congress on Engineering Asset Management (Lecture Notes in Mechanical Engineering) may be the more deep you searching the information that hide within the words the more you get thinking about reading it. It does not mean that this book is hard to recognise but 9th WCEAM Research Papers: Volume 1 Proceedings of 2014 World Congress on Engineering Asset Management (Lecture Notes in Mechanical Engineering) giving you joy feeling of reading. The author conveys their point in a number of way that can be understood through anyone who read that because the author of this book is well-known enough. This specific book also makes your personal vocabulary increase well. That makes it easy to understand then can go with you, both in printed or e-book style are available. We advise you for having that 9th WCEAM Research Papers: Volume 1 Proceedings of 2014 World Congress on Engineering Asset Management (Lecture Notes in Mechanical Engineering) instantly.

David Scott:

You can obtain this 9th WCEAM Research Papers: Volume 1 Proceedings of 2014 World Congress on Engineering Asset Management (Lecture Notes in Mechanical Engineering) by visit the bookstore or Mall. Just viewing or reviewing it might to be your solve challenge if you get difficulties for ones knowledge. Kinds of this guide are various. Not only by means of written or printed but can you enjoy this book by means of e-book. In the modern era just like now, you just looking by your local mobile phone and searching what their problem. Right now, choose your ways to get more information about your publication. It is most important to arrange you to ultimately make your knowledge are still update. Let's try to choose proper ways for you.

Brant Castillo:

What is your hobby? Have you heard that question when you got college students? We believe that that problem was given by teacher to their students. Many kinds of hobby, Every person has different hobby. And also you know that little person just like reading or as studying become their hobby. You need to understand that reading is very important along with book as to be the thing. Book is important thing to include you knowledge, except your teacher or lecturer. You discover good news or update regarding something by book. Amount types of books that can you choose to use be your object. One of them are these claims 9th WCEAM Research Papers: Volume 1 Proceedings of 2014 World Congress on Engineering Asset Management (Lecture Notes in Mechanical Engineering).
