Europe Between the Wars By Martin Kitchen

Martin Kitchen's compelling account of Europe between the wars sets the twenty-year crisis within the context of the profound sense of cultural malaise shared by many philosophers and artists, the economic crises that plagued a Europe ruined by war and the social upheavals caused by widespread unemployment and grinding poverty amid a noticeable improvement of living standards.

This thoroughly revised edition, with completely new sections on intellectual, cultural and social history is richly illustrated with contemporary photographs. It is an up-to-date and lively account of a critical period of European history when the old world collapsed, the dictators offered seemingly exciting alternatives, and democracies were put to the supreme test.

Written for undergraduate students studying 20th century European history, this new edition of a classic will challenge and provoke a deeper understanding of the interwar years.

Editorial Review

Review

'Professor Kitchen is altogether a shrewd, clear, balanced and often witty guide.'

The Times Educational Supplement

'This is a splendid up-to-date overview of the political, international and economic history of Europe between the wars. It will be of invaluable use to both students and scholars alike. Its strengths lie in the breadth of coverage, the clarity of the narrative and the ease with which the authors interlards his story with analysis... This remains an admirable study which students will positively welcome for its clarity, breadth of content and overall good sense.'

The First World War left Europe traumatised and perplexed. It spawned Soviet Communism, Fascism and Nazism, strained democracies to the limit and contributed to the collapse of the world economy. How did this happen? Martin Kitchen's compelling account of Europe between the wars sets the twenty-year crisis within the context of the profound sense of cultural malaise shared by many philosophers and artists, the economic crises that plagued a Europe ruined by war and the social upheavals caused by widespread unemployment and grinding poverty amid a noticeable improvement of living standards.
