Forensic Examination of Fibres, Second Edition (International Forensic Science and Investigation) By James R. Robertson, Claude Roux, Kenneth G. Wiggins

This book is the definitive text for forensic scientists, police and lawyers who may be involved with the use of textile fibres to provide evidence in criminal cases. While covering the subject in detail from recovery of the evidence, through the different stages of laboratory examination, to evaluating the meaning of findings, it is written in such a way that it should be interesting and understandable to the beginner and to the layman, as well as to the expert.
