CCNA Cyber Ops SECOPS 210-255 Official Cert Guide (Certification Guide) By Omar Santos, Joseph Muniz

Learn, prepare, and practice for CCNA Cyber Ops SECOPS #210-255 exam success with this Official Cert Guide from Pearson IT Certification, a leader in IT Certification learning.

- Master CCNA Cyber Ops SECOPS #210-255 exam topics
- Assess your knowledge with chapter-ending quizzes
- Review key concepts with exam preparation tasks
- Practice with realistic exam questions

CCNA Cyber Ops SECOPS 210-255 Official Cert Guide is a best-of-breed exam study guide. Best-selling authors and internationally respected cybersecurity experts Omar Santos and Joseph Muniz share preparation hints and test-taking tips, helping you identify areas of weakness and improve both your conceptual knowledge and hands-on skills. Material is presented in a concise manner, focusing on increasing your understanding and retention of exam topics.

The book presents you with an organized test preparation routine through the use of proven series elements and techniques. Exam topic lists make referencing easy. Chapter-ending Exam Preparation Tasks help you drill on key concepts you must know thoroughly. Review questions help you assess your knowledge and a final preparation chapter guides you through tools and resources to help you craft your final study plan.

The companion website contains the powerful Pearson Test Prep practice test software, complete with hundreds of exam-realistic questions. The assessment engine offers you a wealth of customization options and reporting features, laying out a complete assessment of your knowledge to help you focus your study where it is needed most.

Well-regarded for its level of detail, assessment features, and challenging review questions and exercises, this study guide helps you master the concepts and techniques that will allow you to succeed on the exam the first time.

The study guide helps you master all the topics on the SECOPS #210-255 exam, including:

- Threat analysis
- Forensics
- Intrusion analysis
- NetFlow for cybersecurity
- Incident response and the incident handling process
- Incident response teams
- Compliance frameworks

Editorial Review

About the Author

Omar Santos is an active member of the cybersecurity community, where he leads several industry-wide initiatives and standards bodies. His active role helps businesses, academic institutions, state and local law enforcement agencies, and other participants dedicated to increasing the security of their critical infrastructures.

Omar is the author of more than a dozen books and video courses, as well as numerous white papers, articles, and security configuration guidelines and best practices. Omar is a principal engineer of the Cisco Product Security Incident Response Team (PSIRT), where he mentors and leads engineers and incident managers during the investigation and resolution of cybersecurity vulnerabilities. Additional information about Omar's current projects can be found at omarsantos.io, and you can follow Omar on Twitter @santosomar.

Joseph Muniz is an architect at Cisco Systems and security researcher. He has extensive experience in designing security solutions and architectures for the top Fortune 500 corporations and the U.S. government. Joseph's current role gives him visibility into the latest trends in cybersecurity, from both leading vendors and customers. Examples of Joseph's research include his RSA talk titled "Social Media Deception," which has been quoted by many sources (search for "Emily Williams Social Engineering"), as well as his articles in PenTest Magazine regarding various security topics. Joseph runs The Security Blogger website, a popular resource for security, hacking, and product implementation. He is the author and contributor of several publications covering various penetration testing and security topics. You can follow Joseph at www.thesecurityblogger.com and @SecureBlogger.

Users Review

From reader reviews:

Joseph Lunsford:

Reading a reserve tends to be new life style in this era globalization. With reading through you can get a lot of information that will give you benefit in your life. Together with book everyone in this world can certainly share their idea. Publications can also inspire a lot of people. A great deal of author can inspire their particular reader with their story or their experience. Not only situation that share in the textbooks. But also they write about the data about something that you need example. How to get the good score toefl, or how to teach your kids, there are many kinds of book which exist now. The authors on earth always try to improve their expertise in writing, they also doing some investigation before they write for their book. One of them is this CCNA Cyber Ops SECOPS 210-255 Official Cert Guide (Certification Guide).

Allen Reilley:

People live in this new day time of lifestyle always make an effort to and must have the spare time or they will get lots of stress from both everyday life and work. So , if we ask do people have free time, we will say absolutely sure. People is human not really a huge robot. Then we inquire again, what kind of activity have you got when the spare time coming to a person of course your answer will unlimited right. Then do you

ever try this one, reading ebooks. It can be your alternative with spending your spare time, the book you have read is usually CCNA Cyber Ops SECOPS 210-255 Official Cert Guide (Certification Guide).

Larry Pulido:

As we know that book is essential thing to add our expertise for everything. By a book we can know everything we want. A book is a set of written, printed, illustrated as well as blank sheet. Every year ended up being exactly added. This guide CCNA Cyber Ops SECOPS 210-255 Official Cert Guide (Certification Guide) was filled with regards to science.
