### **Hiroshima Diary: The Journal of a Japanese Physician, August 6-September 30, 1945** By Michihiko Hachiya M.D.

The late Dr. Michihiko Hachiya was director of the Hiroshima Communications Hospital when the world's first atomic bomb was dropped on the city. Though his responsibilities in the appalling chaos of a devastated city were awesome, he found time to record the story daily, with compassion and tenderness. His compelling diary was originally published by the UNC Press in 1955, with the help of Dr. Warner Wells of the University of North Carolina at Chapel Hill, who was a surgical consultant to the Atomic Bomb Casualty Commission and who became a friend of Dr. Hachiya. In a new foreword, John Dower reflects on the enduring importance of the diary fifty years after the bombing.

## **Editorial Review**

### Review

I have read it through at a sitting. . . . It is a simple and unpretentious account of compassion, sorrow, and great courage.--Robert Oppenheimer

Comes closer to telling the real story than anything I have seen outside Japan.--Norman Cousins

Although *Hiroshima Diary* is necessarily full of horrors, it is not a depressing book. Frightening certainly; but the courage, patience, unselfishness, and resourcefulness it records would make the grimmest misanthrope proud of the human race.--*Atlantic Monthly*

One of the most extraordinary records of human calamity and courage in the history of letters.--*Newsweek*

A book that we all ought to read in order that we may know what we have done and what will happen in the future if the atomic weapons continue to be used.--Pearl Buck

An extraordinary literary event.--*New York Times*
