Introductory Chemistry: A Foundation By Steven S. Zumdahl

A bestseller among introductory texts, Zumdahl's "Introductory Chemistry series is a complete teaching system that places a unique emphasis on developing problem-solving skills with a thoughtful step-by-step approach applicable to chemistry and other disciplines. Another important goal of the series is to connect chemistry to real-life experiences, with engaging applications and colorful graphics." "Basic Chemistry, 4/e, (Chapters 1-15) provides basic coverage of chemical concepts and applications through acids and bases. Inclusion of acids and bases is new." "Introductory Chemistry, 4/e, (Chapters 1-18) expands coverage with the addition of equilibrium, oxidation-reduction reactions, electrochemistry, radioactivity, and nuclear energy. "Introductory Chemistry: A Foundation, 4/e (Chapters, 1-20) includes two chapters which provide a brief introduction to organic and biological chemistry.

Editorial Review

About the Author

Steve Zumdahl is the author of market-leading textbooks in introductory chemistry, general chemistry, honors-level chemistry, and high school chemistry. Recently retired from his long-time position as Director of Undergraduate Programs at the University of Illinois, he has received numerous awards for his contributions to chemical education. These include the National Catalyst Award in recognition of his contribution to chemical education, the University of Illinois Teaching Award, the UIUC Liberal Arts and Sciences Advising Award, and the School of Chemical Sciences Teaching Award (five times). He earned his B.S. in Chemistry from Wheaton College (IL), and his Ph.D. from the University of Illinois.

Users Review

From reader reviews:

Stephanie Carlton:

This book untitled Introductory Chemistry: A Foundation to be one of several books which best seller in this year, honestly, that is because when you read this guide you can get a lot of benefit into it. You will easily to buy this specific book in the book shop or you can order it by way of online. The publisher with this book sells the e-book too. It makes you more readily to read this book, because you can read this book in your Mobile phone. So there is no reason for you to past this publication from your list.

Joshua Smith:

In this time globalization it is important to someone to obtain information. The information will make you to definitely understand the condition of the world. The condition of the world makes the information better to share. You can find a lot of recommendations to get information example: internet, newspapers, book, and soon. You can see that now, a lot of publisher that will print many kinds of book. Typically the book that recommended for your requirements is Introductory Chemistry: A Foundation this reserve consist a lot of the information from the condition of this world now. This specific book was represented how does the world has grown up. The language styles that writer require to explain it is easy to understand. The particular writer made some study when he makes this book. That's why this book suited all of you.

Eva Sexton:

This Introductory Chemistry: A Foundation is new way for you who has curiosity to look for some information given it relief your hunger details. Getting deeper you onto it getting knowledge more you know or you who still having little bit of digest in reading this Introductory Chemistry: A Foundation can be the light food for you personally because the information inside that book is easy to get simply by anyone. These books build itself in the form that is reachable by anyone, yeah I mean in the e-book form. People who think that in guide form make them feel sleepy even dizzy this reserve is the answer. So there isn't any in reading a guide especially this one. You can find what you are looking for. It should be here for a person. So , don't miss this! Just read this e-book style for your better life as well as knowledge.

Cheryl Waller:

As a student exactly feel bored for you to reading. If their teacher questioned them to go to the library or make summary for some e-book, they are complained. Just tiny students that has reading's soul or real their leisure activity. They just do what the educator want, like asked to the library. They go to there but nothing reading seriously. Any students feel that examining is not important, boring and also can't see colorful pics on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Introductory Chemistry: A Foundation can make you sense more interested to read.
