A research-driven approach, fine-tuned for even greater ease-of-use and student success

For the **Fourth Edition** of *Physics for Scientists and Engineers*, Knight continues to build on strong research-based foundations with fine-tuned and streamlined content, hallmark features, and an even more robust MasteringPhysics program, taking student learning to a new level. By extending problem-solving guidance to include a greater emphasis on modeling and significantly revised and more challenging problem sets, students gain confidence and skills in problem solving. A modified Table of Contents and the addition of advanced topics now accommodate different teaching preferences and course structures.

Personalize learning with MasteringPhysics

MasteringPhysics from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics. Students can further master concepts after class through assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student

understanding and misconceptions.

Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever—before, during, and after class.

Editorial Review

About the Author

Randy Knight taught introductory physics for 32 years at Ohio State University and California Polytechnic University, where he is Professor Emeritus of Physics. Professor Knight received a Ph.D. in physics from the University of California, Berkeley and was a post-doctoral fellow at the Harvard-Smithsonian Center for Astrophysics before joining the faculty at Ohio State University. It was at Ohio State that he began to learn about the research in physics education that, many years later, led to *Five Easy Lessons: Strategies for Successful Physics Teaching* and this book, as well as *College Physics: A Strategic Approach*, co-authored with Brian Jones and Stuart Field. Professor Knight's research interests are in the field of laser spectroscopy and environmental science. When he's not in front of a computer, you can find Randy hiking, sea kayaking, playing the piano, or spending time with his wife Sally and their six cats.

Users Review

From reader reviews:

Phillip Patten:

The book with title Physics for Scientists and Engineers: A Strategic Approach with Modern Physics (4th Edition) has a lot of information that you can learn it. You can get a lot of gain after read this book. This specific book exist new understanding the information that exist in this guide represented the condition of the world today. That is important to yo7u to understand how the improvement of the world. This kind of book will bring you in new era of the the positive effect. You can read the e-book on the smart phone, so you can read the idea anywhere you want.

John Lien:

This Physics for Scientists and Engineers: A Strategic Approach with Modern Physics (4th Edition) is great book for you because the content and that is full of information for you who always deal with world and still have to make decision every minute. That book reveal it info accurately using great manage word or we can point out no rambling sentences inside. So if you are read the idea hurriedly you can have whole details in it. Doesn't mean it only will give you straight forward sentences but tough core information with wonderful delivering sentences. Having Physics for Scientists and Engineers: A Strategic Approach with Modern Physics (4th Edition) in your hand like keeping the world in your arm, data in it is not ridiculous a single. We can say that no guide that offer you world in ten or fifteen second right but this reserve already do that. So , this is good reading book. Heya Mr. and Mrs. busy do you still doubt which?

Pat Swartz:

Is it a person who having spare time subsequently spend it whole day through watching television programs or just lying on the bed? Do you need something totally new? This Physics for Scientists and Engineers: A Strategic Approach with Modern Physics (4th Edition) can be the respond to, oh how comes? It's a book you

know. You are and so out of date, spending your free time by reading in this fresh era is common not a nerd activity. So what these textbooks have than the others?

Harold Dalton:

As a scholar exactly feel bored to be able to reading. If their teacher asked them to go to the library in order to make summary for some e-book, they are complained. Just tiny students that has reading's heart or real their passion. They just do what the educator want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that reading through is not important, boring in addition to can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Physics for Scientists and Engineers: A Strategic Approach with Modern Physics (4th Edition) can make you sense more interested to read.
