Hooked? Net: The New Approach to Drug Cure By Meg Patterson

This tells the story of NET - a revolutionary cure for drug additions. In this remarkable book Dr. Meg Patterson writes of the background to her discovery, her painstaking research and the extraordinary results, which at last offer real hope for addicts. The treatment is fascinating and effective. Using a tiny electrical current tuned to various frequencies, NET (NeuroElectric Therapy) stimulates the production of several body chemicals - including endorphins, the body's natural opiates - enabling addicts to any drug to detoxify with only minimal withdrawal symptoms. Writing from her wide experience with addicts in Asia and the West, Dr. Patterson also stresses the crucial importance of solving the basic psycho-spiritual problems leading to addiction. Rock stars Eric Clapton, Keith Richards and Pete Townshend, as well as hundreds of other ex-addicts from all strata of society and countries, testify to the success of NET. With a worldwide drug problem of frightening proportions, Hooked? reveals a solution- if the battle against government apathy and medical establishment distrust can be won. "It's so simple . it's a little metal box with leads that clip onto your ears and in two or three days - which is the worst period for kicking junk - in these 72 hours it leaves your system." Keith Richards "This book should be standard reading in any modern educational system." Sean Connery
