Klystrons, Traveling Wave Tubes, Magnetrons, Cross-Field Amplifiers, and Gyrotrons (Artech House Microwave Library) By A. S. Gilmour

Microwave tubes are vacuum electron devices used for the generation and amplification of radio frequencies in the microwave range. An established technology area, the use of tubes remains essential in the field today for high-power applications. The culmination of the author's 50 years of industry experience, this authoritative resource offers you a thorough understanding of the operations and major classes of microwave tubes. Minimizing the use of advanced mathematics, the book places emphasis on clear qualitative explanations of phenomena. This practical reference serves as an excellent introduction for newcomers to the field and offers established tube engineers a comprehensive refresher. Professionals find coverage of all major tube classifications, including klystrons, traveling wave tubes (TWTs), magnetrons, cross field amplifiers, and gyrotrons.

Editorial Review

About the Author

A.S. Gilmour, Jr. is a professor emeritus in the Electrical and Computer Engineering Department at the State University of New York, Buffalo. He is a well-published author of books, journal articles, and conference proceedings, and has numerous patents to his credit. He received his B.S., M.S. and Ph.D. in electrical engineering from Cornell University.

Users Review

From reader reviews:

Carson McDonald:

The book Klystrons, Traveling Wave Tubes, Magnetrons, Cross-Field Amplifiers, and Gyrotrons (Artech House Microwave Library) give you a sense of feeling enjoy for your spare time. You should use to make your capable far more increase. Book can to become your best friend when you getting tension or having big problem with your subject. If you can make looking at a book Klystrons, Traveling Wave Tubes, Magnetrons, Cross-Field Amplifiers, and Gyrotrons (Artech House Microwave Library) for being your habit, you can get far more advantages, like add your capable, increase your knowledge about a few or all subjects. You may know everything if you like open and read a guide Klystrons, Traveling Wave Tubes, Magnetrons, Cross-Field Amplifiers, and Gyrotrons (Artech House Microwave Library). Kinds of book are a lot of. It means that, science guide or encyclopedia or other people. So , how do you think about this book?

Sandy Gonsalves:

Book is to be different per grade. Book for children until eventually adult are different content. As we know that book is very important for us. The book Klystrons, Traveling Wave Tubes, Magnetrons, Cross-Field Amplifiers, and Gyrotrons (Artech House Microwave Library) ended up being making you to know about other expertise and of course you can take more information. It is rather advantages for you. The guide Klystrons, Traveling Wave Tubes, Magnetrons, Cross-Field Amplifiers, and Gyrotrons (Artech House Microwave Library) is not only giving you more new information but also being your friend when you truly feel bored. You can spend your own spend time to read your e-book. Try to make relationship using the book Klystrons, Traveling Wave Tubes, Magnetrons, Cross-Field Amplifiers, and Gyrotrons (Artech House Microwave Library). You never really feel lose out for everything when you read some books.

Rick Briones:

People live in this new moment of lifestyle always try and and must have the free time or they will get great deal of stress from both everyday life and work. So , whenever we ask do people have free time, we will say absolutely sure. People is human not just a robot. Then we ask again, what kind of activity do you possess when the spare time coming to you of course your answer will probably unlimited right. Then ever try this one, reading publications. It can be your alternative within spending your spare time, the actual book you have read is usually Klystrons, Traveling Wave Tubes, Magnetrons, Cross-Field Amplifiers, and Gyrotrons (Artech House Microwave Library).

Homer Holmes:

Many people spending their period by playing outside using friends, fun activity having family or just watching TV all day every day. You can have new activity to shell out your whole day by reading through a book. Ugh, you think reading a book can really hard because you have to take the book everywhere? It alright you can have the e-book, getting everywhere you want in your Touch screen phone. Like Klystrons, Traveling Wave Tubes, Magnetrons, Cross-Field Amplifiers, and Gyrotrons (Artech House Microwave Library) which is getting the e-book version. So , why not try out this book? Let's see.
