

Principles and Practice of Physics, Books a la Carte Plus MasteringPhysics with eText -- Access Card Package

By Eric Mazur

Principles and Practice of Physics, Books a la Carte Plus MasteringPhysics with eText -- Access Card Package By Eric Mazur

NOTE: Books a la Carte are unbound, three-hole-punch versions of the textbook. This lower cost option is easy to transport and comes with same access code or media that would be packaged with the bound book.

XXXXXXXXXXXXXXXXXXXXXXXXXXXX

Based on his storied research and teaching, Eric Mazur's **Principles & Practice of Physics** builds an understanding of physics that is both thorough and accessible. Unique organization and pedagogy allow you to develop a true conceptual understanding of physics alongside the quantitative skills needed in the course.

- **New learning architecture:** The book is structured to help you learn physics in an organized way that encourages comprehension and reduces distraction.
- **Physics on a contemporary foundation:** Traditional texts delay the introduction of ideas that we now see as unifying and foundational. This text builds physics on those unifying foundations, helping you to develop an understanding that is stronger, deeper, and fundamentally simpler.
- **Research-based instruction:** This text uses a range of research-based instructional techniques to teach physics in the most effective manner possible. The result is a groundbreaking book that puts physics first, thereby making it more accessible to you to learn. MasteringPhysics® works with the text to create a learning program that enables you to learn both in and out of the classroom.

This program provides a better teaching and learning experience for you. Here's how:

- **Personalize learning with MasteringPhysics:** MasteringPhysics provides you with engaging experiences that coach them through physics with specific wrong-answer feedback, hints, and a wide variety of educationally effective content.

- **Build an integrated, conceptual understanding of physics:** Gain a deeper understanding of the unified laws that govern our physical world through the innovative chapter structure and pioneering table of contents.
- **Encourage informed problem solving:** The separate Practice Volume empowers you to reason more effectively and better solve problems.

Editorial Review

About the Author

Eric Mazur is the Balkanski Professor of Physics and Applied Physics at Harvard University and Area Dean of Applied Physics. As an internationally recognized scientist and researcher, he leads a vigorous research program in optical physics and supervises one of the largest research groups in the Physics Department at Harvard University. Eric Mazur is author or co-author of over 250 scientific publications and holds two dozen patents. He has also written on education and is the author of *Peer Instruction: A User's Manual* (Prentice Hall, 1997), a book that explains how to teach large lecture classes interactively. In 2006, he helped produce the award-winning DVD *Interactive Teaching*. He is the founder of Learning Catalytics, a platform for promoting interactive learning in the classroom, which is available in MasteringPhysics(R).

Users Review

From reader reviews:

Melvin Paul:

Do you have favorite book? In case you have, what is your favorite's book? Book is very important thing for us to know everything in the world. Each book has different aim as well as goal; it means that publication has different type. Some people experience enjoy to spend their time for you to read a book. They can be reading whatever they have because their hobby is actually reading a book. Think about the person who don't like looking at a book? Sometime, individual feel need book when they found difficult problem or even exercise. Well, probably you will want this Principles and Practice of Physics, Books a la Carte Plus MasteringPhysics with eText -- Access Card Package.

Gladys James:

In this 21st hundred years, people become competitive in most way. By being competitive right now, people have do something to make these people survives, being in the middle of often the crowded place and notice through surrounding. One thing that at times many people have underestimated the item for a while is reading. Yeah, by reading a publication your ability to survive enhance then having chance to stand than other is high. For you personally who want to start reading any book, we give you this particular Principles and Practice of Physics, Books a la Carte Plus MasteringPhysics with eText -- Access Card Package book as starter and daily reading e-book. Why, because this book is greater than just a book.

Emily Higginbotham:

This Principles and Practice of Physics, Books a la Carte Plus MasteringPhysics with eText -- Access Card Package are usually reliable for you who want to be considered a successful person, why. The explanation of this Principles and Practice of Physics, Books a la Carte Plus MasteringPhysics with eText -- Access Card Package can be on the list of great books you must have is actually giving you more than just simple looking at food but feed an individual with information that might be will shock your preceding knowledge. This book will be handy, you can bring it all over the place and whenever your conditions in e-book and printed ones. Beside that this Principles and Practice of Physics, Books a la Carte Plus MasteringPhysics with eText

-- Access Card Package giving you an enormous of experience like rich vocabulary, giving you trial of critical thinking that we realize it useful in your day exercise. So , let's have it appreciate reading.

Scott Burnett:

Can you one of the book lovers? If so, do you ever feeling doubt when you find yourself in the book store? Make an effort to pick one book that you find out the inside because don't evaluate book by its deal with may doesn't work at this point is difficult job because you are afraid that the inside maybe not seeing that fantastic as in the outside appear likes. Maybe you answer might be Principles and Practice of Physics, Books a la Carte Plus MasteringPhysics with eText -- Access Card Package why because the excellent cover that make you consider concerning the content will not disappoint anyone. The inside or content will be fantastic as the outside or cover. Your reading sixth sense will directly assist you to pick up this book.
