Editorial Review

From Library Journal

Michaud and Aynesworth spent weeks interviewing psycho sex killer Bundy before Florida authorities executed him. Bundy's story was detailed by the duo in their chilling volume *The Only Living Witness* (Classics Returns, LJ 11/1/99). The best portion of that title was the excerpts from those interviews. Originally released in 1989, the book contains the full transcripts from those conversations. Without ever admitting that he performed any of these acts (he maintained his innocence until hours before his execution), Bundy offers a matter-of-fact, third-person account of how "someone" performing kidnappings, rapes, and murders might go about it and how that person might act under these circumstances. His frankness offers perhaps the most unfettered look into the mind of a serial killer, and many of his observations are quite surprising, as Bundy reveals himself to be clever, insightful, and intelligent--far from how most would picture a psychosexual killer. His revelations on the nature of the instinct to kill, where it comes from, how it grows, how victims are selected, etc., are invaluable to psychologists and investigators. This updated edition contains a new foreword by Robert Keppel, president of the Institute for Forensics. Copyright 2000 Reed Business Information, Inc.

Part One

Ted Bundy's most apt-and accurate-single-sentence self description was offered not to us but to the group of north Florida cops who interrogated him soon after his final arrest in Pensacola in February of 1978. Said Bundy to the police, "I'm the most cold-blooded son of a bitch you'll ever meet."

Not until he had explicitly confessed to his crimes (at least thirty murders) in the last days of his life did the full meaning of what Ted meant by "cold-blooded" become apparent. Bundy wasn't... read more
