### What Falls Away By Mia Farrow

In an exquisitely written memoir, Mia Farrow introduces us to the landscapes of her extraordinary life. Moving from her earliest memories of the walled gardens and rocky shores of western Ireland and her Hollywood childhood to her career as an actress, she writes of these experiences and her struggle to protect her children in a painful custody battle with Woody Allen. It was this crisis that led her to reflect upon the incidents that had brought her to a place so incomprehensible. Now, in *What Falls Away*, a memoir resonant not only in its honesty but also in its beautifully crafted prose, Mia Farrow speaks for the first time.

She was born the third of seven children to the beautiful actress Maureen O'Sullivan and successful writer/director John Farrow, but the isolation of a polio ward brought her childhood to an abrupt end at the age of nine. Several years later, two deaths shattered the security of the family forever, and Mia Farrow embarked upon a journey that would lead her away from the convent education that was to sustain her spiritual courage, to starring roles in *Peyton Place* and *Rosemary's Baby*, a marriage to Frank Sinatra, divorce, a defining trip to India, work on the London stage and in film, and marriage to André Previn. Their life together in England brought them three sons and three daughters before that marriage, too, dissolved and she returned to the United States.

The year 1979 saw the beginning of a new career with brilliant performances in thirteen of Woody Allen's most distinguished films.

Told with grace and deep understanding, as well as humor, *What Falls Away* goes beneath the surface of this amazing life, with all its drama, success, and pain, and exposes the inner workings of a mind and spirit for whom truth, compassion, and faith are essential.

Mia Farrow's story is ultimately one of hope and courage in the face of difficulty; of commitment to others--most important of whom are her children; and of spiritual strength. Readers will not easily forget this remarkable book, even long after the last page has been turned.

*From the Hardcover edition.*

### Editorial Review

Amazon.com Review

There aren't many lives more steeped in celebrity than Mia Farrow's. The daughter of actress Maureen O'Sullivan and writer-director John Farrow, she grew up in Beverly Hills as a member of "the first generation of movie stars' children." Starting at the tender age of 19 she was involved with a succession of famous men--Frank Sinatra, André Previn, and Woody Allen--and has spent many years as a major film star in her own right. The book is casually populated with dozens of high-profile friends ranging from Yul Brynner and Salvador Dali to Michael Caine and Vladimir Horowitz. Yet Farrow's memoir has an unexpectedly honest, soul-searching quality, detailing her troubled inner life, her spiritual longings and pursuits (including a famous stay at Maharishi Mahesh Yogi's ashram, where her fellow inmates included the Beatles), and her passionate attachment to children. The book unflinchingly recounts her version of the ugly, very public breakup with Allen, including--rather bizarrely--the state supreme court's custody ruling in her favor in its 27-page entirety.

From Library Journal

From Rosemary's Baby to all her babies: Mia in her own words.

Farrow gracefully takes the stage with this autobiography, includes an appendix consisting of a copy of the state supreme court decision on the famous custody trial between her and Woody Allen.

### Users Review

**From reader reviews:**

**Monte Lawson:**

The book What Falls Away can give more knowledge and information about everything you want. Why must we leave a good thing like a book What Falls Away? A few of you have a different opinion about e-book. But one aim which book can give many info for us. It is absolutely right. Right now, try to closer along with your book. Knowledge or info that you take for that, you are able to give for each other; you are able to share all of these. Book What Falls Away has simple shape but the truth is know: it has great and big function for you. You can search the enormous world by open up and read a book. So it is very wonderful.

**Loren Hatfield:**
