Complexity and Group Processes: A Radically Social Understanding of Individuals By Ralph D. Stacey

The increasing complexity of interdependence between people in modern life makes it more important than ever to understand processes of human relating. In the West we tend to base our understanding of relating on the individual.

Complexity and Group Processes suggests an alternative way of understanding human relating. The key questions covered in this book are:

- who am I and how have I come to be who I am?
- who are we and how have we come to be who we are?
- how are we all changing, evolving, and learning?

These are fundamental questions in the study of human interaction, and the answers explored in *Complexity and Group Processes* are highly relevant not only for therapeutic groups but also those who are managing, leading and working in organizations.

Editorial Review

Review

'Stacey entreats us to an intriguing theoretical journey that consists of a critical discussion of a number of perspectives on group theory/process... a rich source book, particularly for those interested in the forging and development of theory.' - Martin Weegmann, *Psychoanalytic Psychotherapy*, December 2005

About the Author

Ralph Stacey is a member of the Institute of Group Analysis in London and works as a group therapist in the NHS. He is also Professor of Management and Director of the Complexity and Management Centre at the Business School of the University of Hertfordshire.
