Editorial Review

From School Library Journal

Gr 9 Up-The use of humans by other humans as sources of free labor and without regard to the intrinsic right of self-determination of those dominated is, Bales argues, as old as humanity and very much a reality in the contemporary world. This resource offers narrative history, descriptions of specific cases of modern slavery (both individual and culturally institutionalized), brief biographies of antislavery figures in the modern world, and international documents propounding the extermination of slavery as an accepted socioeconomic mechanism. The African-American experience-both during slave times and since emancipation-is seen here within a larger context than is offered in some history texts. Americans' use of slave-made consumer goods is brought into clear focus, too, in a way that will attract teen attention and, hopefully, active market censure. Directory information about agencies working for abolition; pertinent books, videos, and Web sites; and a chronology of waxing and waning political support of both slavery and abolition are also provided. While this volume is well suited to reference use, it deserves a place in circulating collections as well.
