Editorial Review

Amazon.com Review

Virginia Medical Examiner Kay Scarpetta has a bloody puzzle on her hands: five headless, limbless cadavers in Ireland, plus four similar victims in a landfill back home. Is a serial butcher loose in Virginia? That's what the panicked public thinks, thanks to a local TV reporter who got the leaked news from her boyfriend, Scarpetta's vile rival, Investigator Percy Ring. But the butchered bodies are so many red herrings intended to throw idiots like Ring off the track. Instead of a run-of-the-mill serial killer, we're dealing with a shadowy figure who has plans involving mutant smallpox, mass murder, and messing with Scarpetta's mind by e-mailing her gory photos of the murder scenes, along with cryptic AOL chat-room messages. The coolest innovation: Scarpetta's gorgeous genius niece, Lucy, equips her with a DataGlove and a VPL EyePhone, and she takes a creepy virtual tour of the e-mailed crime scene.

Unnatural Exposure boasts brisk storytelling, crackling dialogue, evocative prose about forensic-science sleuthing, and crisp character sketches, both of familiar characters like Scarpetta's gruff partner Pete Marino and bit players like the landfill employee falsely accused by Ring. Plus, let's face it: serial killers are old hat. Cornwell's most vivid villains are highly plausible backstabbing colleagues like Ring, who plots to destroy Lucy's FBI career by outing her as a lesbian. Some readers object to the rather abrupt ending, but, hey, it's less jarring than *Hannibal's*, and it's the logical culmination of Cornwell's philosophy about human nature. To illuminate the novel's finale, read Cornwell's remarks on paranoia in her Amazon.com interview. --*Tim Appelo*

From Library Journal

Kay Scarpetta grapples with a serial killer who contacts her via the Internet in this latest from crime novelist Cornwell, who is involved in some headline-making scandal of her own: In a recent trial, she was named as the former lover of a woman whose husband attempted to murder her in a rage over the affair. From [Booklist](#)

Cornwell's latest will undoubtedly sell like hotcakes, given the runaway popularity of her Dr. Kay Scarpetta novels. In the eighth in the series, *Scarpetta*, Virginia's chief medical examiner, has been called to Ireland to help investigate a series of grisly murders in which the killer dismembers his victims. Imagine her horror when Scarpetta returns to the U.S. and finds the killer--or a terrifying copycat--has struck at home. Worse, the victims appear to have been exposed to a deadly, highly contagious smallpox-like virus. To complete her personal nightmare, Scarpetta may have been exposed to the virus, and the killer has started sending her gruesome e-mail messages. With the help of her savvy FBI agent niece Lucy, Scarpetta tracks the elusive killer as her own life hangs in the balance. The suspense builds to an unbearable pitch, but when the murderer's identity and motive are revealed, it's more puzzling than satisfying. No matter. A misstep at the end of an otherwise gripping thriller will do nothing to derail Cornwell's remarkable run of commercial success. The one-million-copy first printing ought to just about handle the demand. *Emily Melton*

Users Review

From reader reviews:

Anna Raynor:

A lot of people always spent their free time to vacation or perhaps go to the outside with them household or

their friend. Are you aware? Many a lot of people spent these people free time just watching TV, as well as playing video games all day long. Charles Frye:

You will get this Unnatural Exposure: Scarpetta (Book 8) (Kay Scarpetta) by browse the bookstore or Mall. Just simply viewing or reviewing it could possibly to be your solve issue if you get difficulties on your knowledge. Kinds of this e-book are various. Not only simply by written or printed but additionally can you enjoy this book by simply e-book. In the modern era like now, you just looking by your mobile phone and searching what your problem. Right now, choose your personal ways to get more information about your guide. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose right ways for you.

Deborah Fishman:

As a pupil exactly feel bored to be able to reading. If their teacher questioned them to go to the library in order to make summary for some reserve, they are complained. Just very little students that has reading's spirit or real their leisure activity. They just do what the professor want, like asked to the library. They go to there but nothing reading seriously. Any students feel that reading through is not important, boring along with can't see colorful images on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this Unnatural Exposure: Scarpetta (Book 8) (Kay Scarpetta) can make you experience more interested to read.
