College Algebra: Graphs and Models (5th Edition) By Marvin L. Bittinger, Judith A. Beecher, David J. Ellenbogen, Judith A. Penna

The **Graphs and Models** series by Bittinger, Beecher, Ellenbogen, and Penna is known for helping students “see the math” through its focus on visualization and technology. These books continue to maintain the features that have helped students succeed for years: focus on functions, visual emphasis, side-by-side algebraic and graphical solutions, and real-data applications.

With the **Fifth Edition**, visualization is taken to a new level with technology, and students find more ongoing review. In addition, ongoing review has been added with new **Mid-Chapter Mixed Review** exercise sets and new **Study Guide summaries** to help students prepare for tests.

This package contains:

- College Algebra: Graphs and Models, Fifth Edition

Editorial Review

About the Author

Marvin Bittinger For over thirty-eight years, Professor Marvin L. Bittinger has been teaching math at the university level. Since 1968, he has been employed at Indiana University - Purdue University Indianapolis, and is now professor emeritus of mathematics education. Professor Bittinger has authored over 190 publications on topics ranging from basic mathematics to algebra and trigonometry to applied calculus. He received his BA in mathematics from Manchester College and his PhD in mathematics education from Purdue University. Special honors include Distinguished Visiting Professor at the United States Air Force Academy and his election to the Manchester College Board of Trustees from 1992 to 1999. His hobbies include hiking in Utah, baseball, golf, and bowling. Professor Bittinger has also had the privilege of speaking at many mathematics conventions, most recently giving a lecture entitled "Baseball and Mathematics." In addition, he also has an interest in philosophy and theology, in particular, apologetics. Professor Bittinger currently lives in Carmel, Indiana with his wife Elaine. He has two grown and married sons, Lowell and Chris, and four granddaughters.

David Ellenbogen David Ellenbogen has taught math at the college level for twenty-two years, spending most of that time in the Massachusetts and Vermont community college systems, where he has served on both curriculum and developmental math committees. He has also taught at St. Michael's College and The University of Vermont. Professor Ellenbogen has been active in the Mathematical Association of Two Year Colleges since 1985, having served on its Developmental Mathematics Committee and as a delegate, and has been a member of the Mathematical Association of America since 1979. He has authored dozens of publications on topics ranging from prealgebra to calculus and has delivered lectures at numerous conferences on the use of language in mathematics. Professor Ellenbogen received his BA in mathematics from Bates College and his MA in community college mathematics education from The University of Massachusetts at Amherst. A co-founder of the Colchester Vermont Recycling Program, Professor Ellenbogen has a deep love for the environment and the outdoors, especially in his home state of Vermont. In his spare time, he enjoys playing keyboard in the band Soularium, volunteering as a community mentor, hiking, biking, and skiing. He has two sons, Monroe and Zack.

Judy Beecher has an undergraduate degree in mathematics from Indiana University and a graduate degree in mathematics from Purdue University. She has taught at both the high school and college levels with many years of developmental math and precalculus teaching experience at Indiana University - Purdue University Indianapolis. In addition to her career in textbook publishing, she spends time traveling, enjoying her grandchildren, and promoting charity projects for a children's camp. Judy Penna received her undergraduate degree in mathematics from Kansas State University and her graduate degree in mathematics from the University of Illinois. Since then, she has taught at Indiana University - Purdue University Indianapolis and at Butler University, and continues to focus on writing quality textbooks for undergraduate mathematics students. In her free time she likes to travel, read, knit and spend time with her children.

Users Review

From reader reviews:

David Nester:

Have you spare time for the day? What do you do when you have much more or little spare time? Sure, you can choose the suitable activity for spend your time. Any person spent their own spare time to take a wander, shopping, or went to the particular Mall. How about open or even read a book titled College Algebra: Graphs and Models (5th Edition)? Maybe it is being best activity for you. You know beside you can spend your time together with your favorite's book, you can better than before. Do you agree with its opinion or you have additional opinion?

Cornell Smith:

The book College Algebra: Graphs and Models (5th Edition) can give more knowledge and information about everything you want. Why must we leave a good thing like a book College Algebra: Graphs and Models (5th Edition)? A few of you have a different opinion about publication. But one aim that will book can give many data for us. It is absolutely proper. Right now, try to closer together with your book. Knowledge or facts that you take for that, you are able to give for each other; you are able to share all of these. Book College Algebra: Graphs and Models (5th Edition) has simple shape but the truth is know: it has great and big function for you. You can appearance the enormous world by open and read a e-book. So it is very wonderful.

Solomon Steward:

In this 21st centuries, people become competitive in most way. By being competitive today, people have do something to make these survives, being in the middle of typically the crowded place and notice by simply surrounding. One thing that occasionally many people have underestimated that for a while is reading. Sure, by reading a publication your ability to survive increase then having chance to stand than other is high. For yourself who want to start reading any book, we give you this kind of College Algebra: Graphs and Models (5th Edition) book as basic and daily reading reserve. Why, because this book is greater than just a book.

Dora Champagne:

Some people said that they feel bored stiff when they reading a guide. They are directly felt the item when they get a half parts of the book. You can choose the book College Algebra: Graphs and Models (5th Edition) to make your current reading is interesting. Your personal skill of reading skill is developing when you like reading. Try to choose basic book to make you enjoy to study it and mingle the opinion about book and reading especially. It is to be initial opinion for you to like to wide open a book and examine it. Beside that the book College Algebra: Graphs and Models (5th Edition) can to be your friend when you're truly feel alone and confuse in doing what must you're doing of this time.
