Thoracic Imaging (Oxford Specialist Handbooks in Radiology) By Sujal R. Desai, Susan J. Copley, Zelena A. Aziz, David M. Hansel

Imaging tests are integral to the management of patients with suspected lung disease. Staggering advances in radiological technology have been associated with an ever-increasing complexity, and so keeping up with terminology, understanding the significance of basic radiological signs, and appreciating the prognostic impact of findings on imaging tests, is not an easy undertaking for the physician. Until now, there has been a lack of practical, pocket-sized, but authoritative texts dealing principally with the imaging features of pulmonary disease.

Covering the essential elements of pulmonary imaging in a concise and digestible format, *Pulmonary Imaging* deals with both the key principles of thoracic imaging, including a separate section on the common radiological terms used to describe pulmonary pathology, and the principal pathological compartments that are affected in specific disease processes. It is packed with over 600 high quality illustrations to highlight the important radiological features in the different diseases, with an emphasis on chest radiography (CXR) and computed tomography (CT) to mirror routine clinical practice.

Editorial Review

Review

...a fine example of how relevant information can be concisely put into a book slightly larger than the size of your palm. With text by internationally recognised experts, it is not surprising that the book is very well written, containing a wealth and depth of knowledge... This book will be invaluable to not just trainee radiologists but also the non-thoracic specialist looking for a quick refresher or a pocket guide. *
RADMagazine, May 2013 *

About the Author

Sujal R. Desai is Consultant Radiologist and Honorary Senior Lecturer at King's College Hospital NHS Foundation Trust in London, UK. Susan J. Copley is Consultant Radiologist and Honorary Clinical Lecturer at Hammersmith Hospitals NHS Trust in London, UK. Zelena A. Aziz is Consultant Radiologist at St Bartholomew's and the London Chest Hospital, UK. David M. Hansel is Director of the Department of Radiology at Royal Brompton Hospital in London, UK.

Users Review

From reader reviews:

Dawn Williams:
