Applying FOUNDATION Fieldbus By B. R. Mehta, Y. J. Reddy

A comprehensive and practical guide to the theory, engineering, and implementation of FOUNDATION Fieldbus in process control systems, this book: * overviews the theory of the operations and basic concepts of the Foundation Fieldbus standards. * provides knowledge of the different topologies and installation options available in FOUNDATION Fieldbus standards and their applications for enabling engineers to design control systems to solve industry problems. * includes case studies and practical information about key items to consider when using FOUNDATION Fieldbus-based host systems and field transmitters. * is written by an experienced practitioner from a leading company that was one of the major installations of FOUNDATION Fieldbus. Applying FOUNDATION Fieldbus is a guide for the practitioners of process control systems. This book is aimed at providing the knowledge engineering and maintenance teams require. The technology benefits and areas for improvement are unbiased and from a user's point of view, bridging the gap between theory and technician-level coverage on a practical basis. The book offers a pragmatic approach to the subject based on industrial experience, taking into account the latest technologies and professional practices. Its clear coverage of concepts and applications gives engineers the knowledge they need before referring to vendor documentation, and it includes straightforward guidelines for implementing a process control system with Foundation Fieldbus technology, along with some worked examples of deployments translating theory into practice. This book is an ideal introduction to the subject for junior-level professionals, as well as being an essential reference for more experienced practitioners.

Editorial Review

About the Author

B. R. Mehta, PhD, is the senior vice president of Reliance Industries Ltd., Mumbai, and has more than 43 years of experience in the refinery and petrochemicals industry. He has worked on control systems and instrumentation engineering projects for Patalganga, Hazira, and Jamnagar Refinery & Petrochemicals during his 30+ years with Reliance Industries. Before joining Reliance, he worked for Agro-Chemical & Food Co., Kenya, as chief instrumentation engineer and for Indian Petrochemicals Ltd., Vadodara, for 11 years as instrument engineer. He is currently heading the design and engineering department for control systems and instrumentation. He has worked on basic engineering, detailed engineering, procurement, inspection, expediting, construction, testing, pre-commissioning and commissioning of various petrochemicals, chemicals, co-generation power and refinery projects from concept to commissioning. He is the nominated chairman of the End User Council of Fieldbus Foundation in India and is a member of the End User Advisory Council worldwide. Mehta became an ISA Fellow in 2013 for innovative design and implementation of FF technology in major refinery and petrochemical complexes. He is the district vice president of D14 for ISA. He has a doctorate of professional entrepreneurship, majoring in engineering management, from the European Continental University. For his outstanding contribution in the field of instrumentation he was awarded Global Achievers Award at the House of Lords UK. Y. J. Reddy, PhD, has a wealth of experience in the field of industrial automation and control. He graduated with a degree in electronics and instrumentation engineering in 1997 from KITS, Warangal, has a master s in software systems from BITS, Pilani, and has a PhD in Instrumentation and Control Engineering from JNTUK, India. Earlier in his career he worked for JOCIL Ltd, a subsidiary of The Andhra Sugars Limited, as an engineer (instrumentation), responsible for maintenance and project activities of the instrumentation and control engineering team. He is currently working as an engineering manager for process measurement and control systems at HTS Labs India. He is a member of ISA and is a Certified Automation Profes-sional (CAP).

Users Review

From reader reviews:

Carrie Rivas:

Why don't make it to become your habit? Right now, try to ready your time to do the important behave, like looking for your favorite e-book and reading a e-book. Beside you can solve your problem; you can add your knowledge by the reserve entitled Applying FOUNDATION Fieldbus. Try to make the book Applying FOUNDATION Fieldbus as your pal. It means that it can for being your friend when you feel alone and beside associated with course make you smarter than before. Yeah, it is very fortunated for you. The book makes you more confidence because you can know every little thing by the book. So , let me make new experience in addition to knowledge with this book.

Eileen Williams:

Spent a free the perfect time to be fun activity to accomplish! A lot of people spent their free time with their family, or their very own friends. Usually they accomplishing activity like watching television, about to beach, or picnic inside park. They actually doing same every week. Do you feel it? Would you like to something different to fill your own personal free time/ holiday? May be reading a book is usually option to fill your no cost time/ holiday. The first thing you will ask may be what kinds of e-book that you should read.

If you want to attempt look for book, may be the book untitled Applying FOUNDATION Fieldbus can be fine book to read. May be it is usually best activity to you.

Mark Johnson:

Exactly why? Because this Applying FOUNDATION Fieldbus is an unordinary book that the inside of the book waiting for you to snap that but latter it will jolt you with the secret the item inside. Reading this book alongside it was fantastic author who else write the book in such wonderful way makes the content interior easier to understand, entertaining way but still convey the meaning completely. So , it is good for you for not hesitating having this anymore or you going to regret it. This phenomenal book will give you a lot of rewards than the other book have got such as help improving your expertise and your critical thinking technique. So , still want to postpone having that book? If I had been you I will go to the e-book store hurriedly.

Bonnie Parker:

This Applying FOUNDATION Fieldbus is completely new way for you who has attention to look for some information because it relief your hunger details. Getting deeper you into it getting knowledge more you know or else you who still having tiny amount of digest in reading this Applying FOUNDATION Fieldbus can be the light food to suit your needs because the information inside this specific book is easy to get by anyone. These books build itself in the form that is reachable by anyone, yeah I mean in the e-book application form. People who think that in e-book form make them feel drowsy even dizzy this e-book is the answer. So there isn't any in reading a e-book especially this one. You can find actually looking for. It should be here for anyone. So , don't miss this! Just read this e-book variety for your better life and also knowledge.
