Mortal enemies.
Doomed love.

With her rare ability to breathe fire, Jacinda is special even among the draki—the descendants of dragons who can shift between human and dragon forms. But when Jacinda's rebelliousness forces her family to flee into the human world, she struggles to adapt, even as her draki spirit fades. The one thing that revives it is the gorgeous, elusive Will, whose family hunts her kind. Jacinda can't resist getting closer to him, even though she knows she's risking not only her life but the draki's most closely guarded secret.

Mythical powers and breathtaking romance ignite in this story of a girl who defies all expectations and whose love crosses an ancient divide.

Editorial Review

From School Library Journal

Gr 7 Up—Jacinda is extraordinary—even for a draki (descendants of dragons who can shift into human form): she is a fire-breather. Unique and invaluable to her “pride,” the 16-year-old is kept on a short leash, and it has already been ordained that she will mate with the alpha male, Cassian. Jacinda's determination to do things her own way finds her nearly captured by dragon hunters, but a surprisingly kind young hunter named Will allows her to escape. Rather than suffer the pride's punishment for her daughter's risky behavior, Jacinda's mother decides the family should flee to live among regular humans. Masquerading as a typical high school student would bury Jacinda's draki nature until it died out. When Will turns out to be a classmate, Jacinda finds that her inexplicable attraction to him keeps her feel of fire and flight alive. Being near a hunter is the most dangerous choice Jacinda can make, yet her desire for him—and need to preserve her inner dragon—cannot be ignored. This distinctive twist on the popular supernatural romance theme will appeal to fans of the genre, even if a lack of resolution at this story's culmination may frustrate some readers. “Twilight” fans ready to move beyond vampires will jump right in.—Tara Kehoe, Plainsboro Public Library, NJ(c) Copyright 2010. Descended from dragons, the draki's ability to appear human protects them from hunters. Jacinda lives with her pride in the Cascades, but she chafes under her special status as the only fire-breather in hundreds of years. Recklessly breaking the “no-fly” rule, she attracts hunters; mercifully, one hunter, a beautiful boy who looks upon her with wonder, lets her escape. After this, the pride intends to hobble her rebelliousness, and Jacinda is forced to flee. But while twin sister Tamra, who never manifested and was shunned, is happy with the move, Jacinda feels only anguish within Nevada's desert climate. Then she meets Will and, despite recognizing him as the same draki hunter, feels herself come alive. Jordan's compelling addition to the supernatural star-crossed lovers theme is equal parts taut suspense and sensuous romance, with visceral writing and believable relationships among characters, particularly among Jacinda's family. A foreshadowed twist and a thrilling confrontation in the end pages leave Jacinda heartbroken and in trouble, and readers will howl for more. Grades 8-12. --Krista Hutley
