Incident Management for the Street-Smart Fire Officer By John F. (Skip) Coleman

A new and improved version of the original best seller, Incident Management for the Street-Smart Fire Officer, is for everyone who wants to learn new ways to enhance the flow of their fire department's management system. Whether you are a firefighter looking to become an officer, or an officer whose future probably includes the word "Chief", you will benefit from this book. The second edition of Incident Management for the Street-Smart Fire Officer provides an overview of the Incident Command System (ICS) with an expanded look at the initial firefighting tactical and strategic considerations. It covers operations at house and routine fires and looks in-depth at the relationship between the Incident Commander and Group/Division officers at routine fires.

Editorial Review

From the Author

"This text is directed at any department, large or small, that does not use some form of incident management, or which knows deep down that the one it has may look good on paper but isn't practical on the fireground."

About the Author

John (Skip) Coleman is a retired assistant chief from the Toledo (OH) Department of Fire and Rescue. He retired with more than 32 years of experience and managed every major bureau in the department. He is a graduate of the National Fire Academy's Executive Fire Office Program and teaches and lectures throughout the United States and Canada. He is the author of *Incident Management for the Street Smart Fire Officer* (Fire Engineering, 1997) and *Managing Major Fires* (Fire Engineering, 2001) and is moderator of Fire Engineering's monthly Roundtable. He serves on the FDIC educational advisory board and is a technical editor for Fire Engineering.

Users Review
