The City: London and the Global Power of Finance By Tony Norfield

Radical insider's account of how the city of London really works

The City, as London's financial centre is known, is the world's biggest international banking and foreign exchange market, shaping the development of global capital. It is also, as this groundbreaking book reveals, a crucial part of the mechanism of power in the world economy.

Based on the author's twenty years' experience of City dealing rooms, *The City* is an in-depth look at world markets and revenues that exposes how this mechanism works. All big international companies—not just the banks—utilise this system, and *The City* shows how the operations of the City of London are critical both for British capitalism and for world finance.

Tony Norfield details, with shocking and insightful research, the role of the US dollar in global trading, the network of Britishlinked tax havens, the flows of finance around the world and the system of power built upon financial securities. Why do just fifty companies now have control of a large share of world economic production? *The City* explains how this situation came about, examining the history of the world economy from the postwar period to the present day.

If you imagine you don't like "finance" but have no problem with the capitalist market system, think again: it turns out the two cannot be separated.

Editorial Review

Review

“*The City* is a tour de force, which will soon be recognized as a formidable challenge to conventional wisdom and an essential contribution in its own right.”

—**Robert Brenner, author of *The Economics of Global Turbulence***

“It is not every day you read a book about global finance by a banker who quotes Lenin approvingly on page two. Unlike many of those who produce Marxist critiques of financial capitalism, Norfield writes from a position of experience: he has worked in the belly of the beast, and the book is the better for it ... In *The City*, he has done the research and pulled together the financial statistics that explain how the bloodsucking works.”

—***Financial Times***

“This book does the seemingly impossible: rendering finance’s mysteries transparent to the average reader, and at the same time delivering a penetrating analysis of the global economic system that will enlighten even experts. Tony Norfield has written a truly exciting and important book.”

—**Paul Mattick, author of *Business as Usual***

“*The City* is a valuable addition to the critical analysis of the financialisation of our world. And Tony Norfield is an experienced and radical guide to London’s role in this process. This book should be required reading for both bankers and activists alike.”

—**Joris Luyendijk, author of *Swimming with Sharks: My Journey into the World of the Bankers***

“With heaps of empirical research and a clear style of argumentation, he demonstrates that the City isn’t a ‘satellite of Wall Street’ as many think, but its own beast, using Britain’s imperialist privilege to extract value from the world economy. Much of the book is directed against bad arguments made by the liberal-left—the distinction between ‘productive’ capitalism and ‘casino’ banking; the populist vitriol against ‘the banks’—which Norfield believes aren’t just analytically false but let capitalism off the hook.”

—**Yohann Koshy, *Vice***

“Tony Norfield has had 20 years experience in City of London financial dealing rooms, for ten years as an executive director and global head of FX strategy in a major European bank. He went on to complete a PhD in economics at SOAS, London. Above all, he is a Marxist. It’s a perfect recipe for an excellent book on modern British imperialism and the features of global finance in the 21st century.”

—**Michael Roberts, author of *The Long Depression***

“How many Marxists are at work in the dealing rooms of the City? Presumably they keep their heads well down. Tony Norfield is—or was—one. Twenty years a trader at the centre of the financial web, he has married the insights into the workings of the system he gained to a thorough Marxist understanding of political economy. The result is this fascinating book.”

—***Morning Star***

“Tony Norfield's opus *The City* takes on a big subject and makes it, well—big ... Casts a new light on a well-researched subject.”

—***Financial Adviser***

“A timely and insightful book ... It is an excellent read for anyone seriously wanting to consider the financial system.”

—*Scottish Business Insider*

“An invaluable book for anyone wishing to better understand the world of finance, how the City operates and how this relates to the broader capitalist system.”

—**Tom Haines-Doran, *rs21***

About the Author

For nearly twenty years, **Tony Norfield** worked in bank dealing rooms in the City of London. For ten years he was an Executive Director and the Global Head of FX Strategy in a major European bank, travelling to some forty countries on business, negotiating with finance ministries, central banks and major corporations. He was frequently quoted in the *Financial Times*, *Wall Street Journal*, *Guardian* and *Telegraph*, and on news services such as Reuters, Bloomberg, CNN and CNBC. In 2014, he was awarded a PhD in Economics from the School of Oriental and African Studies, University of London.

Users Review

From reader reviews:

Tammy Ely:

What do you with regards to book? It is not important along with you? Or just adding material when you really need something to explain what the one you have problem? How about your free time? Right now, choose your current ways to get more information about your reserve. It is most important to arrange you to ultimately make your knowledge are still up-date. Let's try to choose proper ways for you.

Darlene Beaudoin:

As a college student exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some guide, they are complained. Just very little students that has reading's internal or real their passion. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that reading through is not important, boring along with can't see colorful images on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore this The City: London and the Global Power of Finance can make you really feel more interested to read.
