The Blackwell Guide to the Modern Philosophers: From Descartes to Nietzsche From Brand: Wiley-Blackwell

This guide brings together eighteen original interpretations of the modern philosophers from Descartes to Nietzsche. The contributors succeed brilliantly in placing their figures within a rich historical, cultural, and philosophical context, noting some of the important ways in which their ideas and arguments were shaped by the intellectual currents of the time, and how they in turn shaped subsequent philosophical debate.

Editorial Review

Review

"Steven Emmanuel has done an impressive job of assembling a distinguished group of authors who give us a very helpful guide to the modern philosophers. With an eye to bringing us 'up to speed' on the more recent scholarship, the contributors provide a timely, readable, and highly worthwhile collection." *John Fischer, University of California, Riverside*

"This is a wonderful resource! It provides a valuable service by drawing on experts for eminently clear and engaging narratives. I expect to refer to it often." *M. Jamie Ferreira, University of Virginia*

"This book is a worthy acquisition." *R.H. Nash, Reformed Theological Seminary, Choice, January 2001*

"A superb volume...Each essay is clearly written, with most or all jargon carefully explained. By far this book's greatest asset...is the extraordinary way in which Emmanuel gets the different authors to provide, as if in concert, a chronological development of the main ideas of the period. Emmanuel's beautiful volume can, I think, very richly supplement a student's exposure to the period for those figures whose work receives little or no space on the syllabus." *Patrick Mooney, John Carroll University, THES, 1/6/01*

From the Back Cover

This guide brings together eighteen original interpretations of the modern philosophers from Descartes to Nietzsche. The contributors succeed brilliantly in placing their figures within a rich historical, cultural, and philosophical context, noting some of the important ways in which their ideas and arguments were shaped by the intellectual currents of the time, and how they in turn shaped subsequent philosophical debate.

Each chapter focuses on the central ideas and arguments of an individual philosopher, with discussions ranging over a wide variety of topics, including morality, politics, religion, epistemology, metaphysics, aesthetics, logic, mathematics, and the natural sciences.

Combining the virtues of careful scholarship and lucid exposition, these essays achieve a balance between intellectual history and philosophical analysis that is rarely found in collections of this kind. Thus, although the volume is eminently suitable for a student audience, the essays will certainly be of great interest to scholars who work in the field of modern philosophy or whose work encompasses intellectual history.

About the Author

Steven M. Emmanuel is Professor of Philosophy at Virginia Wesleyan College. He is author of *Kierkegaard & the Concept of Revelation* (1996).

Users Review

From reader reviews:

Keiko Whitchurch:

As people who live in typically the modest era should be revise about what going on or facts even knowledge

to make them keep up with the era and that is always change and advance. Some of you maybe will update themselves by examining books. It is a good choice for yourself but the problems coming to you is you don't know which one you should start with. This The Blackwell Guide to the Modern Philosophers: From Descartes to Nietzsche is our recommendation to cause you to keep up with the world. Why, because book serves what you want and wish in this era.

Richard Freed:
