## The Mathematical Mechanic: Using Physical Reasoning to Solve Problems By Mark Levi

Everybody knows that mathematics is indispensable to physics--imagine where we'd be today if Einstein and Newton didn't have the math to back up their ideas. But how many people realize that physics can be used to produce many astonishing and strikingly elegant solutions in mathematics? Mark Levi shows how in this delightful book, treating readers to a host of entertaining problems and mind-bending puzzlers that will amuse and inspire their inner physicist.

Levi turns math and physics upside down, revealing how physics can simplify proofs and lead to quicker solutions and new theorems, and how physical solutions can illustrate why results are true in ways lengthy mathematical calculations never can. Did you know it's possible to derive the Pythagorean theorem by spinning a fish tank filled with water? Or that soap film holds the key to determining the cheapest container for a given volume? Or that the line of best fit for a data set can be found using a mechanical contraption made from a rod and springs? Levi demonstrates how to use physical intuition to solve these and other fascinating math problems. More than half the problems can be tackled by anyone with precalculus and basic geometry, while the more challenging problems require some calculus. This one-of-a-kind book explains physics and math concepts where needed, and includes an informative appendix of physical principles.

*The Mathematical Mechanic* will appeal to anyone interested in the little-known connections between mathematics and physics and how both endeavors relate to the world around us.

### **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **Amber Weitz:**

Book is definitely written, printed, or outlined for everything. You can recognize everything you want by a reserve. Book has a different type. To be sure that book is important issue to bring us around the world. Next to that you can your reading talent was fluently. A reserve The Mathematical Mechanic: Using Physical Reasoning to Solve Problems will make you to become smarter. You can feel more confidence if you can know about anything. But some of you think this open or reading a new book make you bored. It is not make you fun. Why they may be thought like that? Have you in search of best book or appropriate book with you?

##### **Richard Redd:**

The book The Mathematical Mechanic: Using Physical Reasoning to Solve Problems can give more knowledge and also the precise product information about everything you want. Why must we leave the best thing like a book The Mathematical Mechanic: Using Physical Reasoning to Solve Problems? Several of you have a different opinion about reserve. But one aim that will book can give many information for us. It is absolutely proper. Right now, try to closer with your book. Knowledge or information that you take for that, you are able to give for each other; you may share all of these. Book The Mathematical Mechanic: Using Physical Reasoning to Solve Problems has simple shape but the truth is know: it has great and large function for you. You can appear the enormous world by available and read a publication. So it is very wonderful.

##### **Kristen Zamora:**

Many people spending their period by playing outside having friends, fun activity with family or just watching TV 24 hours a day. You can have new activity to invest your whole day by reading a book. Ugh, do you think reading a book will surely hard because you have to use the book everywhere? It okay you can have the e-book, bringing everywhere you want in your Touch screen phone. Like The Mathematical Mechanic: Using Physical Reasoning to Solve Problems which is obtaining the e-book version. So , try out this book? Let's view.

##### **Claire Davis:**

That guide can make you to feel relax. This specific book The Mathematical Mechanic: Using Physical Reasoning to Solve Problems was bright colored and of course has pictures on there. As we know that book The Mathematical Mechanic: Using Physical Reasoning to Solve Problems has many kinds or variety. Start from kids until teens. For example Naruto or Investigation company Conan you can read and believe you are the character on there. Therefore , not at all of book are usually make you bored, any it can make you feel happy, fun and unwind. Try to choose the best book to suit your needs and try to like reading that.
