The Opposing Shore By Julien Gracq

With four elegant and beautifully crafted novels Julien Gracq has established himself as one of France's premier postwar novelists. A mysterious and retiring figure, Gracq characteristically refused the Goncourt, France's most distinguished literary prize, when it was awarded to him in 1951 for this book. As the latest work in the Twentieth-Century Continental Fiction Series, Gracq's masterpiece is now available for the first time in English.

Set in a fictitious Mediterranean port city, *The Opposing Shore* is the first-person account of a young aristocrat sent to observe the activities of a naval base. The fort lies at the country's border; at its feet is the bay of Syrtes. Across the bay is territory of the enemy who has, for three hundred years, been at war with the narrator's countrymen; the battle has become a complex, tacit game in which no actions are taken and no peace declared. As the narrator comes to understand, everything depends upon a boundary, unseen but certain, separating the two sides. Besides the narrator there are two other main characters, the dark and laconic captain of the base and a woman whose complex relations to both sides of the war brings the narrator deeper into the story's web.

For many French readers *The Opposing Shore* (published as *Le rivage des Syrtes*), with its theme of transgressions and boundaries, spoke to the issue of defeat and the desire to fail: a particularly sensitive motif in postwar French literature. But there is nothing about the novel tying it either to France or to the 1950s; in fact, Gracq's novel, with its elaborate, richly detailed prose, will be of greater interest now than at any point in the last twenty years.

Editorial Review

From Publishers Weekly

In this surrealist novel, winner of the Prix Goncourt, young nobleman Aldo feels the lure of a forbidden country hostile for 300 years to his own city-state. PW stated that "Gracq's hypnotic dreamworld, its richly coiling and textured prose, holds the reader in its strange spell."

From Library Journal

The "opposing shore" is uncivilized Farghestan, which faces decadent Orsenna across the desolate and marshy Bay of Syrtis. Gracq's most famous novel, published in France in 1951, posits a somnolent war of three centuries' duration between the two Mediterranean states. At long last a restless Orsennian opens "one of those doors you pass through in dreams" to provoke his hereditary enemies to action. By novel's end the barbarians are at the gate. Gracq's is a 20th-century vision of decay expressed in the lapidary style of an earlier age, a masterpiece of atmosphere and indirection. Highly recommended for collections of modern literature. Grove Koger, Boise P.L., Id.
