**Topological Methods, Variational Methods and Their Applications - Proceedings of the Icm2002 Satellite Conference on Nonlinear Functional Analysis** From World Scientific Publishing Company

ICM 2002 Satellite Conference on Nonlinear Analysis was held in the period: August 14-18, 2002 at Taiyuan, Shanxi Province, China. This conference was organized by Mathematical School of Peking University, Academy of Mathematics and System Sciences of Chinese Academy of Sciences, Mathematical school of Nankai University, and Department of Mathematics of Shanxi University, and was sponsored by Shanxi Province Education Committee, Tian Yuan Mathematics Foundation, and Shanxi University. 166 mathematicians from 21 countries and areas in the world attended the conference. 53 invited speakers and 30 contributors presented their lectures. This conference aims at an overview of the recent development in nonlinear analysis. It covers the following topics: variational methods, topological methods, fixed point theory, bifurcations, nonlinear spectral theory, nonlinear Schrödinger equations, semilinear elliptic equations, Hamiltonian systems, central configuration in N-body problems and variational problems arising in geometry and physics.

## **Editorial Review**

From the Publisher

Readership: Researchers and graduate students in nonlinear differential equations, nonlinear functional analysis, dynamical systems, mathematical physics etc

## **Users Review**

**From reader reviews:**

**Linda Fite:**

Spent a free a chance to be fun activity to do! A lot of people spent their free time with their family, or all their friends. Usually they doing activity like watching television, going to beach, or picnic from the park. They actually doing ditto every week. Do you feel it? Would you like to something different to fill your personal free time/ holiday? Can be reading a book may be option to fill your no cost time/ holiday. The first thing you ask may be what kinds of reserve that you should read. If you want to attempt look for book, may be the publication untitled Topological Methods, Variational Methods and Their Applications - Proceedings of the Icm2002 Satellite Conference on Nonlinear Functional Analysis can be great book to read. May be it may be best activity to you.

**Jewell Brundage:**

Playing with family within a park, coming to see the marine world or hanging out with good friends is thing that usually you have done when you have spare time, subsequently why you don't try issue that really opposite from that. 1 activity that make you not feeling tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love Topological Methods, Variational Methods and Their Applications - Proceedings of the Icm2002 Satellite Conference on Nonlinear Functional Analysis, you could enjoy both. It is very good combination right, you still would like to miss it? What kind of hang type is it? Oh occur its mind hangout fellas. What? Still don't understand it, oh come on its referred to as reading friends.

**Andrew Blanton:**

This Topological Methods, Variational Methods and Their Applications - Proceedings of the Icm2002 Satellite Conference on Nonlinear Functional Analysis is great publication for you because the content which can be full of information for you who else always deal with world and possess to make decision every minute. This specific book reveal it info accurately using great manage word or we can point out no rambling sentences within it. So if you are read the item hurriedly you can have whole facts in it. Doesn't mean it only offers you straight forward sentences but tough core information with beautiful delivering sentences. Having Topological Methods, Variational Methods and Their Applications - Proceedings of the Icm2002 Satellite Conference on Nonlinear Functional Analysis in your hand like keeping the world in your arm, info in it is not ridiculous one. We can say that no book that offer you world within ten or fifteen small right but this

book already do that. So , it is good reading book. Heya Mr. and Mrs. busy do you still doubt that?

**Gary Roth:**

Beside this particular Topological Methods, Variational Methods and Their Applications - Proceedings of the Icm2002 Satellite Conference on Nonlinear Functional Analysis in your phone, it can give you a way to get more close to the new knowledge or facts. The information and the knowledge you can got here is fresh from your oven so don't end up being worry if you feel like an older people live in narrow commune. It is good thing to have Topological Methods, Variational Methods and Their Applications - Proceedings of the Icm2002 Satellite Conference on Nonlinear Functional Analysis because this book offers for your requirements readable information. Do you occasionally have book but you rarely get what it's facts concerning. Oh come on, that wil happen if you have this with your hand. The Enjoyable blend here cannot be questionable, including treasuring beautiful island. Techniques you still want to miss the idea? Find this book in addition to read it from currently!
